

Aptitude Software launches Innovation Center in Wroclaw – Poland’s hub of technology talent

NEWS | For Immediate Release – 03 October 2019

The announcement of the Aptitude Innovation Center marks a continued and significant investment in Aptitude's product development and future roadmap. Under the rebranded name, the Polish location will continue to serve as the home for all technology, research and development, and testing for the organization.

Aptitude Software CEO designate, Jeremy Suddards, commented, "We are incredibly proud of our Innovation Center and the talent that we have working on the future of our products. We wanted to make sure the environment for the growing tech community we have, was representative of the culture of deep expertise, creativity, and teamwork that exists in Wroclaw. We have over 120 technology specialists using the very latest technology and methodologies to build the future of finance technology for our clients."

Last year, Aptitude reinvested 34% of revenue in product R&D and plans to continue that level of investment into the future. The Wroclaw office has grown 12% over the last two years and is ramping up recruitment further to support product development and company growth. Openings include business analysts, test engineers, technical authors, software architects and developers, and cloud engineers. Aptitude is confident the investment in the center will help attract additional, highly talented candidates from the pool of tech professionals in the region.

"A huge advantage of Aptitude is the fact that people who are working here know what they are doing and are driven by passion. Hence, the teamwork is a pure pleasure – every person is focused on the goal, knows their tasks and what is important – and honestly wants to complete it. If we stumble the team is always there to help us out," states **Sebastian Cegiłka, a Junior Developer at Aptitude**.

Aptitude Software offers competitive benefits, including a profit-related bonus, private healthcare, life and disability insurance, Multisport Card, and regular gift cards. Aptitude is also committed to the personal and professional growth of Innovation Center team members, offering English lessons during work hours, career development, flexible work options, and various ways to relax and engage with other employees during the workday.
